Instructions for 2019 IA 100A – Iowa Capital Gain Deduction for Sales of Cattle, Horses, or Breeding Livestock

The Iowa capital gain deduction is subject to review by the Iowa Department of Revenue. The Department will use this form to verify that the taxpayer(s) qualifies for the deduction. The Department may request additional information if needed.

This completed form must be included with the IA 1040 to support the Iowa capital gain deduction claimed for livestock sales. Multiple livestock sales can be reported on one IA 100A as long as the property details are the same across all sales. If property details reported in Part II differ across sales, complete a separate IA 100A. Complete the form each year of a qualifying installment sale, including all parts.

For taxpayers filing separately on the same return, each spouse must complete an IA 100A for the Iowa capital gain deduction claimed based on the spouse's ownership percentage in the property.

Flowcharts to assist in determining if a gain qualifies are also available in the expanded instructions online. For more information on the Iowa capital gain deduction, see the instructions below and 701 IAC 40.38.

Part I: Sale of Cattle, Horses, or Breeding Livestock

Line 1. Check the box to indicate whether the taxpayer reported the capital gain under Internal Revenue Code (IRC) section 1231.

Line 2. Complete the table as instructed below. Enter each animal sold on a separate line; however, if multiple animals have identical information in each column of the table, the animals may be combined on one line by entering the number and type of livestock sold in the first column (for example, "3 Bulls," "10 Swine"). Include a separate statement if more lines are needed:

Type of livestock: Enter the type of livestock sold as "Cattle," "Horses," or specify the type of breeding livestock sold. Breeding livestock may include swine, donkeys, sheep, goats, fur-bearing mammals, and other mammals. Breeding livestock does not include poultry, chickens, turkeys, pigeons, geese, other

birds, fish, frogs, or reptiles, and sales of these animals do not qualify for the Iowa capital gain deduction.

Livestock use: Enter whether the taxpayer used the livestock sold for "Breeding," "Dairy," "Draft," or "Sporting" purposes. Livestock other than cattle and horses must be used for breeding purposes to qualify for the Iowa capital gain deduction.

Documented sale date: Enter the sale date for the livestock sold, as indicated in supporting documentation and as reported on the taxpayer's federal return.

Meet minimum holding period?: Enter "Yes" or "No" to indicate whether the livestock sold meet the minimum holding period. Cattle and horses must be held for at least 24 months. Other breeding livestock must be held for at least 12 months. Cattle, horses, and other breeding livestock that do not meet the minimum holding period do not qualify for the Iowa capital gain deduction and should not be included.

Name of purchaser, if lineal descendant: If the purchaser of the livestock is a lineal descendant of the taxpayer, enter the name of the purchaser. If the purchaser of the livestock is not a lineal descendant of the taxpayer, leave the field blank. Lineal descendant is defined as a child of the taxpayer including a biological child, a legally adopted child, a stepchild, grandchild, and great-grandchild.

Relation of purchaser, if lineal descendant: If the purchaser of the livestock is a lineal descendant of the taxpayer, enter the purchaser's relation to the taxpayer (for example, "Child," "Grandchild"). If the purchaser of the livestock is not a lineal descendant of the taxpayer, leave the field blank.

Line 4. Enter the taxpayer's gross income from farming or ranching operations in tax year 2019. If married filing jointly, income from both spouses must be included. Farming and ranching gross income is typically reported on federal Schedule F line 9 or 50, federal Form 4835 line 7, or as partnership income from

farming. If farm income was reported on another location on the federal return, enter that income before any expenses are deducted.

Line 5. Enter the taxpayer's gross income from IA 1040 line 15, with modifications to reflect income before the deduction of expenses. Common examples include: gross farm income on IA 100A Part I, line 4 rather than net farm income reported on IA 1040 line 11; and gross income on federal Schedule C line 7 rather than business income reported on IA 1040 line 5. If married filing jointly, income from both spouses must be included.

Line 6. Calculate the proportion of the taxpayer's gross income from farming or ranching operations by dividing Part I, line 4 by Part I, line 5. Round the number to three decimal places, and enter the number as a percent (for example: 100.0%; 65.2%)

Line 7. If married filing separately, each spouse claiming the capital gain deduction must separately meet and demonstrate the individual's gross income from farming or ranching operations exceeds 50.0% by completing a separate IA 100A.

Part II: Details of Property Sold

Line 1. Check the box to indicate whether the taxpayer's capital gain resulted from the sale of livestock by a C corporation. The sale of assets by a C corporation does not qualify for the Iowa capital gain deduction. Note: The gain from a corporate liquidation under IRC section 331 may qualify for the Iowa capital gain deduction. If the gain is realized under IRC section 331, check "No" and continue to Part II, line 2.

Line 2. If married filing jointly and both spouses are the only owners, check yes. If married filing separately and both spouses are owners, check no; each spouse must complete an IA100A and indicate on line 3 the separate ownership percentage of that spouse.

Line 3. Enter the taxpayer's ownership percentage of the property sold at the time of the sale to three decimal places (for example: 50.0%; 33.3%). If not the sole owner, the taxpayer's ownership percentage must be less than 100% and greater than 0%.

Line 4. Enter the names of all persons and entities that owned the livestock at the time of sale. Alternatively, if the capital gain flowed through to the taxpayer from a partnership, S corporation, limited liability company (LLC), estate, or trust, only that entity may be reported here instead of all other co-owners.

Line 5. Check the box to indicate whether capital gain comes from an installment sale. If "Yes," enter the date of the first installment, the expected date of the final installment, the total capital gain generated by the sale, and the capital gain the taxpayer received during tax year 2019. Do not include any interest received.

Line 6. Enter the amount of the taxpayer's capital gain deduction claimed. Note that the deduction applies to the net capital gain from a sale. Any nonrecaptured losses are treated as ordinary income and are not eligible for the Iowa capital gain deduction. The eligibility of the Iowa capital gain deduction reported here is subject to further examination by the Department.
