	01/01/2022 to end of tax year				\$0.300	\$	\$	\$

**7. Pass-Through Fuel Tax Credit**

Report pass-through Fuel Tax Credit from partnership, LLC, S corporation, estate, or trust. ....7. \$ \_\_\_\_\_

**8. Total Fuel Tax Credit**

Add Fuel Tax Credit columns from lines 1 through 6, and line 7. Report on line 59 of the IA 1040, line 42 of the IA 1041, line 1 of Schedule C1 on the IA 1120, or on Schedule B of the IA 1065 or IA 1120S.....8. \$ \_\_\_\_\_

\*2241005029999\*

Effective July 1, 2022, the fuel tax rate for Undyed Biodiesel B-11 or higher has changed. Effective July 1, 2023, the fuel tax rates for E-15 or higher and B-11 or higher have changed. All other fuel types are unchanged.

Ethanol Blended Gasoline is separated into two different tax categories: E-10 to E-14 and E-15 or higher. E-85 is part of Ethanol Blended Gasoline E-15 or higher.

Resident and nonresident individuals, fiduciaries of estates and trusts, and C corporations may claim a tax credit on their income tax returns for fuel that was purchased during the tax period to be used in unlicensed vehicles for non-highway purposes.

A partnership, LLC, S corporation, estate, or trust with fuel purchased during the tax period for use in unlicensed vehicles for non-highway purposes is eligible for a tax credit that is allocated to the members. The pass-through entity must file the IA 4136 with its return. A pass-through entity filing an IA 1065 or IA 1120S must also report the credit on Schedule B of that IA 1065 or IA 1120S. On IA Schedule K-1 or on an attachment to IA Schedule K-1, the entity must report the tax credit for each member and instruct the members to report the apportioned tax credit on line 7 of form IA 4136 and include it with their tax returns.

**Include a copy of the IA 4136 and federal Form 4136 with your return.**

If you filed a fuel tax refund claim during the tax year, you cannot also claim a Fuel Tax Credit; your refund permit will become invalid if you claim a Fuel Tax Credit. However, the Fuel Tax Credit is not available for casualty losses, transport diversions, idle time, pumping credits, off-loading procedures, reefer units, blending errors, power take-offs, ready mix, solid waste, export by distributors, or tax overpaid on blended fuel. A refund can be claimed for those reasons alongside the Fuel Tax Credit.

Dyed diesel fuel is always sold free of Iowa fuel tax. No Fuel Tax Credit may be claimed for dyed diesel fuel.

All undyed special fuel used in watercrafts is eligible for the Fuel Tax Credit; however, gasoline used in a watercraft does not qualify for the tax credit unless the watercraft was used by a commercial fisher licensed and operating under an owner's certificate for commercial fishing gear

issued pursuant to Iowa Code section 482.7.

Members of a partnership, LLC, S corporation, estate, or trust may claim this tax credit for fuel tax paid by the pass-through entity on fuel that was or will be used in unlicensed vehicles for non-highway purposes. Each member's share of the credit is found on the IA Schedule K-1 or attachment. Members must report the pass-through entity name, the pass-through entity FEIN on the top of the form, and the member's tax credit amount on line 7. Include a separate list with this information if claiming this credit from multiple pass-through entities but complete only one IA 4136.

**Instructions**

**Federal Employer ID Number or Social Security Number:** Enter your Federal Employer ID Number (FEIN) or Social Security Number. Do not enter your canceled fuel tax refund permit number.

**Fuel Used For:** Mark the proper box(es) to indicate how the fuel was used. Review your invoices to verify that Iowa fuel tax was paid before claiming a tax credit. This area must be completed.

**Lines 1-6:** Invoice Gallons - Based on the invoice date, enter the total number of whole gallons of fuel purchased on which Iowa fuel tax was paid during your tax year. Invoices must be issued in the name of the taxpayer or entity claiming the tax credit. Retain invoices for three years after your return is filed.

Highway Gallons - Enter the number of whole gallons included in invoice gallons that were used on the highway.

Claimed Gallons - Subtract highway gallons from invoice gallons to calculate claimed gallons.

Fuel Tax Paid - Multiply the claimed gallons by the appropriate tax rate per gallon in each row.

Sales Tax - Iowa sales tax is owed on all fuel claimed for the tax credit except that used in exempt activities such as farming and processing. To compute sales tax, within each row, calculate the average cost per gallon of fuel purchased minus the relevant per gallon Iowa fuel tax. Multiply the result by the claimed gallons. Multiply this amount by the Iowa sales tax rate of 6% to calculate the sales tax owed.

Fuel Tax Credit - Subtract sales tax from the fuel tax paid. Any Fuel Tax Credit claimed must be net of sales tax owed.

**Line 7: Pass-Through Fuel Tax Credit** - Report any pass-through tax credit amount reported on your K-1. If multiple Fuel Tax Credits were passed through to you, report the sum of those credits here and provide all names and FEINs.

**IA 1120, IA 1065, or IA 1120S filers subject to the Iowa e-file mandate:** A taxpayer claiming this credit for biodiesel B-11 or higher or E-15 or higher, purchased on or after July 1, 2023, will be unable to e-file this form using the IRS Modernized e-file program. Such taxpayers may, upon request, receive a good cause exception to Iowa's e-file mandate for the IA 1120, IA 1065, IA 1120S, and IA PTE-C. To request an exception, submit an Electronic Filing Requirement Exception Request (78-641) form, select "other" as the reason for exception, and write "IA 4136 Fuel Credit" in the space provided.

**Include this form with your IA 1040, IA 1040C, IA 1041, IA 1120, IA 1120S, or IA 1065.**
