FOREWORD

A Retail Sales and Use Tax Report is published for each of the four quarters ending September 30, December 31, March 31, and June 30. An annual report is published covering sales made on July 1 of one year through June 30 of the following calendar year.

To classify retail activity by type of business the report utilizes the 1997 North American Industry Code Classification System (NAICS). In 1999, the Department of Revenue converted many of the 1987 Standard Industrial Classification (S.I.C.) codes to the appropriate four digit 1997 NAICS codes. Where an exact match was not possible, the Department of Revenue attempted to match as closely as possible with NAICS codes. The NAICS codes were used to develop the business groups.

The retail sales tax section of the report consists of three subsections. (A) "Retail Sales Tax by County and City" provides data for all towns in Iowa regardless of size, where the minimum number of returns were filed (40 returns for a fiscal year). The "Other" category presents data for cities not satisfying the minimum requirements. (B) "Retail Sales Tax by Business Group by County" provides data by 12 business groups for each county. Breakouts are provided for each business group for each county where a minimum of 20 or more returns were filed in a fiscal year. An 'S' representing 'Suppressed' is placed in any business group that does not have the minimum of 20 returns filed. If more detailed information for a particular city is desired contact the Department of Revenue (at 515-281-4359) and every effort will be made to accommodate the request. (C) "Retail Sales Tax by Business Classification" provides a breakdown of statewide sales tax according to the 12 business groups with 82 subcategories. In order to protect the confidentiality of individual businesses, information for any business classification with less than 20 returns filed for the annual report are aggregated and put in the 'Non Classified' category in the "Miscellaneous" group.

The use tax section presents data for the three use taxes: Motor Vehicle Use Fee, Retailers Use Tax and Consumers Use Tax. Motor Vehicle Use Fee data is presented according to the county in which the vehicle is registered. Retailers Use Tax data is presented by business group and business classification. Consumers Use Tax data is compiled by both county and business group.

The introductory section of this report continues with a list of relevant terms and their definitions and an account of the development of both the sales and use tax laws. A comparison of Retail Sales Tax in the current period to the previous two years is included. Breakdowns of sales tax by business group, population size, and size of taxable sales receipts and computed tax are also included. The introductory section concludes with a section on the local option Hotel/Motel Tax with a summary of the law and the collected tax receipts.

DEVELOPMENT OF THE IOWA RETAIL SALES TAX

Effective July 1, 2008, a 6 percent tax was imposed on the gross receipts received from the retail sales of tangible personal property in Iowa and from receipts received for the performance of certain taxable services in this state. The amount of gross receipts is adjusted by adding the value of goods consumed by businesses which were purchased tax exempt and subtracting the amount of any exempt sales.

The sales tax was first imposed in 1934 in Iowa for a 3-year period at the rate of 2 percent. As adopted, the tax was imposed only on the gross receipts received from the sale of tangible personal property; the sale of gas, electricity, water, and communication services; and the sale of admissions to places of amusement or athletic events.

Since 1934 the tax base has been revised to include gross receipts from the sales of all forms of amusement devices and commercial amusement enterprises effective April 24, 1947; the renting of rooms by the same person, unless rented for a period of 31 or more consecutive days effective as of July 1, 1965; the performance of certain enumerated services as of October 1, 1967; the sale of newsprint and ink used in the printing of any newspapers as of January 1, 1970; and the sales resulting from gambling, games of skill and raffles as of June 2, 1973. As of July 1, 1981, the sales tax was applied to the total purchase price of optional service or warranty contracts which provide for repair parts or labor. Effective July 1, 1985, the sales tax base was expanded to include such items as candy, soft drinks and prepared foods. The list of taxable services was also enhanced to include such services as cable television, campgrounds, gun and camera repair, building maintenance, lawn care, and several additional items.

Effective in 1971, exemptions to sales tax were enacted for the sale of tangible personal property to be used as railroad rolling stock and used motor vehicles that were subject to registration. Exemptions for food purchased for home consumption, prescription drugs, and medical devices became effective July 1, 1974. The First Session of the 66th General Assembly in 1975 extended the food and drug exemption to apply to sales of medically prescribed oxygen. In 1979 sales by cities and counties, except utility service, were exempted. Effective July 1, 1987, purchases of certain farm machinery and industrial equipment became exempt. A partial list of allowable exemptions is provided in the glossary on page II, for a complete list go to the Department of Revenues website at <http://www.iowa.gov/tax/educate/79120.pdf>.

Sales tax rates have been adjusted several times since the enactment of the tax. The original rate of 2 percent was in effect from the date of enactment until June 30, 1955. Between July 1, 1955, and June 30, 1957, the tax rate was increased to 2-1/2 percent. The tax rate was again set at 2 percent effective July 1, 1957, and remained in effect until the enactment of a 3 percent rate effective October 1, 1967. The 3 percent rate remained in effect until March 1, 1983, when the rate became 4 percent. The rate changed on July 1, 1992, to 5 percent and increased again from 5 percent to 6 percent beginning July 1, 2008.

The Retail Sales Tax section continues on pages III - XII with a review of data for fiscal year 2010 including breakdowns of the data by county, population group, business group, amounts of computed tax, and a comparison of the present period to the same period the last two years.

THE YEAR IN REVIEW

Retail Sales Tax

Beginning with Fiscal Year 2009 annual reports cover the period beginning July 1st and ending June 30th. Previously, the fiscal year for the Annual Sales and Use Tax Statistical Report covered periods beginning April 1st and ending March 31st. The change was made so that the period covered is consistent with the State's fiscal year. Quarterly statistical summaries will continue to be provided on the Department's Web site. This will allow the summarization of sales and use tax statistics by calendar year or for other time periods as desired. For consistency in the comparisons to previous years the data presented in Figures A and B on page V are presented for the tax periods beginning with the September quarter and ending June quarter of the following year.

Total retail sales tax due on returns filed for the fiscal year ending June 30, 2010, was \$1,910.4 million, a 3.54% decrease from the \$1,980.6 million collected in fiscal year 2009. The number of quarterly returns filed decreased from 352,178 in fiscal year 2009 to 350,870 in fiscal year 2010, a 0.4 percent decrease.

Review of Quarterly Returns in FY 2010

The December quarter had the most computed tax, 26.1 percent of the 2010 fiscal year total. Figures A and B on page V present the quarterly tax liabilities during fiscal year 2010 and for each of the past 2 fiscal years.

Gross Receipts in FY 2010

Examination of the table "Gross Sales and Computed Tax By Amount of Gross Sales for Fiscal 2010" on page VIII provides a profile of tax liability based on the gross sales of Iowa firms. Businesses that had \$1 million or more in quarterly gross sales collected 65.3 percent of total retail sales tax in fiscal year 2010 while comprising only 3.9 percent of total businesses filing returns. Those firms with quarterly gross sales of under \$10,000 represented 49.7 percent of total businesses filing returns, but their retail sales tax collections represented only 1.1 percent of total tax collections.

Sales Tax Due by County in FY 2010

To facilitate the comparison of an individual county's retail sales tax collections to surrounding counties or trade areas, a table of Iowa's ninety-nine counties is shown on pages XI and XII of this report.

DEVELOPMENT OF USE TAX

Effective July 1, 2008, Iowa imposes a use tax at the rate of 6 percent on the purchase price of tangible personal property which is purchased for use in Iowa. The tax is also imposed on individuals using those services subject to the sales tax when such services or the result of such services are used in Iowa.

A use tax was first imposed in Iowa in 1937 in conjunction with the permanent adoption of the sales tax. Since its adoption, the development of the use tax has generally paralleled that of the sales tax both in terms of tax base and rates. Credits are provided, however, against the amount of use tax due in Iowa for any sales, use, or occupational taxes paid to another state.

As presented on page XIII, the Iowa use tax is collected under two complementary use taxes: (1) Retailer's Use and (2) Consumer's Use. Previously a Motor Vehicle Use Tax was imposed on the purchase of new and used motor vehicles. Beginning July 1, 2008 the Motor Vehicle Use Tax was replaced with a one time registration fee on new and used vehicles.

(1) The Retailer's Use Tax is collected by registered retailers from the purchaser on the sale of all tangible property and taxable services. Retailers located outside of the state who maintain a place of business in Iowa are required to register with the Department and collect the tax on all sales made into Iowa.

(2) Use tax liability which is not paid through a retailer remains the responsibility of the consumer. Purchasers of property on which the tax has not been paid are required to file a quarterly Consumer's Use tax return in conjunction with payment of the tax.

(3) A 5 percent one-time registration fee is imposed on the sale of new and used motor vehicles which are subject to registration. The tax is imposed on the taxable price which is the delivered price less cash discounts and the value of any property traded. Payment of the tax is made to the county treasurer where the vehicle is registered. Credits are also provided for sales or use taxes paid on motor vehicles to other states.

Pages XIII - XIV present a review of Retailer's Use Tax data by business group and by size of computed tax and a comparison of use tax data for the current period compared to the same period last year.
