What is the intended benefit of the rule?

Chapter 531—19 is intended to provide generally applicable rules that govern all of the Iowa Lottery’s pull-tab games. The pull-tab games offered by the Iowa Lottery further the Lottery’s goals of providing continued entertainment to the public while maximizing revenues. The rules are intended to ensure that pull-tab games are conducted fairly and with integrity.

Is the benefit being achieved? Please provide evidence.

Yes. In 2023, the Iowa Lottery reported sales of pull-tab tickets totaling \$13,011,623. Sales of pull-tab tickets accounted for approximately 3% of lottery sales in 2023.

What are the costs incurred by the public to comply with the rule?

Players who choose to purchase pull-tab tickets offered by the Iowa Lottery incur the cost of the ticket as specified in the game specific rules governing the pull-tab game in which they enter.

What are the costs to the agency or any other agency to implement/enforce the rule?

The agency incurs no costs to administer this rule chapter beyond those costs envisioned by chapter 99G of the Iowa Code. Under section 99G.38, the Iowa Lottery is self-funded.

Do the costs justify the benefits achieved? Please explain.

Yes. As mentioned above, the sale of pull-tab games totaled over \$13 million in 2023. These sales attest to the continued popularity of pull-tab games among the Iowa Lottery’s customers. These rules facilitate the conduct of the pull-tab games offered by the Iowa Lottery while maintaining fairness of play and the integrity of the Lottery’s operations.

Are there less restrictive alternatives to accomplish the benefit? YES NO

If YES, please list alternative(s) and provide analysis of less restrictive alternatives from other states, if applicable. If NO, please explain.

These rules provide minimum, generally-applicable standards for all pull-tab games offered by the Iowa Lottery. Less restrictive alternatives may threaten the fairness and integrity of these types of games.
