What is the intended benefit of the rule?

The chapter describes the Department’s interpretation of the underlying statute to help the public understand the one time fee for new registration for vehicles in Iowa. These rules reduce uncertainty about when a vehicle is subject to registration and when the fee is applied.

Is the benefit being achieved? Please provide evidence.

The Department has determined that the rules aid the public in better understanding vehicles subject to registration. The evidence for the benefit of the rules is demonstrated from the text of the rules themselves and the greater certainty they provide taxpayers.

What are the costs incurred by the public to comply with the rule?

There is no cost to comply with the rules. Any costs to comply with the rules are associated with the underlying statute.

What are the costs to the agency or any other agency to implement/enforce the rule?

There are no costs to the agency of implementing the rules beyond those that would otherwise be required to administer the statute.

Do the costs justify the benefits achieved? Please explain.

There are no costs of the rules themselves. The cost of inaction would be confusion about when the vehicle fee for new registration applies.

Are there less restrictive alternatives to accomplish the benefit? YES NO

If YES, please list alternative(s) and provide analysis of less restrictive alternatives from other states, if applicable. If NO, please explain.

The rules have been revised where possible to rescind statutory text or obsolete language. The rules that will be re-promulgated have been determined to be necessary and reworded to provide clarity. There is no less restrictive alternative to achieve the benefit of additional certainty.

Does this chapter/rule(s) contain language that is obsolete, outdated, inconsistent, redundant, or unnecessary language, including instances where rule language is duplicative of statutory language? [list chapter/rule number(s) that fall under any of the above categories]
