#### Who May Use The IA 130FID

Only estates or trusts with an Iowa situs with an income tax liability in another state, local jurisdiction outside of Iowa, or foreign country may reduce their Iowa tax liability by claiming an Iowa Fiduciary Out-of-State Tax Credit.

Estates or trusts which had a situs in Iowa for only part of the year may claim this credit only if any income earned by the estate or trust while it had an Iowa situs was also taxed by another state, local jurisdiction outside of Iowa, or foreign country.

Complete a separate IA 130FID for each state, local jurisdiction outside of lowa, or foreign country. Separate IA 130FIDs are not required for foreign taxes paid by mutual funds or other regulated investment companies. The credit or portion of the credit must not exceed the amount of the lowa tax imposed on the same income tax was taxed by the other state, local jurisdiction outside of lowa, or foreign country.

### Part II: Calculation of Credit

**Line 10:** Report the amount of Federal total income from IA 1041, line 9.

ESBT Reporting: If you are reporting the ESBT portion of the income only, report the amount of federal adjusted ESBT income reported on IA 1041, Schedule E, line 1.

**Line 11: Iowa Modifications to Federal Total Income** Enter the amount from IA 1041, Schedule A, Part II, line 8 minus the amount of Iowa Net Operating Loss from IA 1041, Schedule A, line 6.

ESBT Reporting: If you are reporting the ESBT portion of the income only, subtract the amount reported on IA 1041, Schedule E, line 3 from the amount reported on IA 1041, Schedule E, line 2 and report the balance on this line.

**Line 14:** Report the amount reported on IA 1041, line 34.

ESBT Reporting: If you are reporting the ESBT portion of the income only, report the amount of tax reported on IA 1041, Schedule E, line 5.

#### Line 16:

Enter the income tax imposed by the other state or jurisdiction, paid by you on income included on line 9.

- Enter the income tax actually shown due and paid by the estate or trust as calculated from the tax formula/tables on the other state, local jurisdiction outside of lowa, or foreign country's tax return filed by the estate or trust, less any nonrefundable credits, and less any refundable credit provided for entity-level taxes paid by a pass-through entity.
- This does not include taxes deemed to be paid to another jurisdiction for purposes of computing the federal foreign tax credit on your federal form 1116

#### Line 17:

Enter the income tax imposed by the other state or jurisdiction and paid by your pass-through entity or mutual fund on income included on line 9.

- If your distributive share of income from a pass-through entity was taxed by another state, local jurisdiction outside of lowa, or foreign country but reported on a composite return, or if a pass-through entity was subject to an entity-level income tax in another state, local jurisdiction outside of lowa, or foreign country on your distributive share of income also taxed by lowa, your pro-rata share of this income tax will be identified on a schedule provided to you by your pass-through entity.
- Enter your reported pro-rata share of the income tax on this line. This will be your pro-rata share of the income tax actually shown due and paid by the pass-through entity as calculated from the tax formula/tables on the other state, local jurisdiction outside of lowa, or foreign country's tax return filed by the pass-through entity, less any nonrefundable credits. This is not the amount withheld or paid as estimated income tax payments.

• However, if you receive a refundable tax credit in the other state, local jurisdiction outside of lowa, or foreign country for all or part of the entity-level income tax paid by a pass-through entity, the amount of the refund attributable to that refundable credit reduces the income tax paid by the passthrough entity.
