What is the intended benefit of the rule?

The rule describes the Department's interpretation of the underlying statutes on the reassessment expense fund. The rules are intended to help the public and local government officials understand the reassessment expense fund.

Is the benefit being achieved? Please provide evidence.

To the extent rule language is being rescinded, the Department has determined the language is unnecessary, obsolete, or duplicative of statutory language. To the extent rule language is being re-promulgated, the Department has determined that the language aids the public in better understanding the terms used in other rules. The evidence for the benefit of the rule is demonstrated from the text of the rule itself and the greater certainty it provides to taxpayers and local governments.

What are the costs incurred by the public to comply with the rule?

There is no cost to comply with the rule beyond those imposed by the underlying statute.

What are the costs to the agency or any other agency to implement/enforce the rule?

The rules do not impose any costs to the agency of implementing the rule beyond those that are already required to administer the related statutes.

Do the costs justify the benefits achieved? Please explain.

There are no costs of the rules themselves. The cost of inaction is potential confusion about the process of applying for loans under the reassessment expense fund.

Are there less restrictive alternatives to accomplish the benefit? ☐ YES ☒ NO

If YES, please list alternative(s) and provide analysis of less restrictive alternatives from other states, if applicable. If NO, please explain.

The rules have been revised where possible to rescind statutory text or obsolete language. The rules that will be re-promulgated have been determined to be necessary. There is no less restrictive alternative to achieve the benefit of additional certainty.

Does this chapter/rule(s) contain language that is obsolete, outdated, inconsistent, redundant, or unnecessary language, including instances where rule language is duplicative of statutory language? [list chapter/rule number(s) that fall under any of the above categories]

PLEASE NOTE, THE BOXES BELOW WILL EXPAND AS YOU TYPE

Yes. Chapter 116 contains language that has been determined to be obsolete, outdated, and duplicative.
